# Cookie statement

Our sites use cookies and similar tracking tools to distinguish you from other users. This helps us to provide you with a good experience when you browse our sites and allows us to improve our sites. Cookies are pieces of information that a website transfers to your hard drive to store and sometimes track information about your use of our sites. When you enter one of our sites our web server sends a cookie to your device which allows us to recognize your device. Cookies set by us are called first party cookies. Our partners may also set cookies from a domain different than that of our web servers, which are called third party cookies. By associating the identification numbers in the cookies with other information you may provide, for example if you register or make a purchase with us, then we may know that the cookie information relates to you.

**We use cookies to:**

- Manage the experience on our sites. This enables us to keep track of items selected to the shopping cart in our store or remember you when you return to our sites. These are also used to store your preferences such as your language choice or job search criteria to display relevant results.

- Authenticate access to secure areas of our sites such as your account or to payment areas of our sites.

- Improve the sites or services by using analytics to understand traffic patterns so we can find popular site content and potential problems.

- Display our advertising. We may partner with third party advertising networks who use cookies to help us display advertising on our sites or to enable us to advertise to you on other websites you may visit as well as to understand the effectiveness of that advertising.

**Types of cookies we use:**

We maintain a list of cookies that are set by our web servers. We categorize the cookies into the following categories:

- **Strictly Necessary Cookies** – These cookies are essential for our website to provide the function requested by you. It also includes what is required for our website to comply with our legal obligation to you, such as providing security.

- **Performance/Analytics Cookies** – These cookies allow us to collect information about how you use our website so that we can measure and improve the performance of our site. They help us know which information is more or less interest to you.

- **Targeting Cookies** – These cookies may be set through our website by our marketing and advertising partners. They are used by us to provide our partners information about the DeliverHealth Solutions products and services information you have viewed on our website. Our partners use this information to show you our information and advertisement on other sites that may be of interest to you.

**How you can control cookies:**

Most web browsers automatically accept cookies, but if you prefer, you can change your browser to prevent that and your help screen or manual will tell you how to do this. However, you may not be able to take full advantage of our website if you prevent automatic acceptance of cookies.

You can opt out of interest-based advertising by clicking here [or if located in the European Union by clicking here]. Please note you will continue to receive generic ads.

You can also opt out of each cookie category (except strictly necessary cookies) by clicking on the "Cookie Settings" button below:

**Clicking the button opens a screen from "OneTrust" that allows opt-outs:**

## Privacy Preference Center

When you visit Nuance's websites, we use cookies and similar tracking tools to distinguish you from other users. This information might be about your user preferences or your device and is mostly used to make the site work as you expect it to. By associating site cookies with other information you may provide, we may know that the cookie information relates to you.

Because we respect your right to privacy, you can choose not to allow some types of cookies. Click on the different category headings to find out more and change our default settings. However, blocking some

types of cookies may impact your experience of the site and the services we are able to offer.

To learn more, click Cookie Notice.

## Manage Consent Preferences

*Strictly Necessary Cookies*
**Always Active**

These cookies are necessary for the website to function and cannot be switched off in our systems. They are usually only set in response to actions made by you which amount to a request for services, such as setting your privacy preferences, logging in or filling in forms.   You can set your browser to block or alert you about these cookies, but some parts of the site will not then work. These cookies do not store any personally identifiable information.

*Performance Cookies*

These cookies allow us to count visits and traffic sources so we can measure and improve the performance of our site. They help us to know which pages are the most and least popular and see how visitors move around the site.   All information these cookies collect is aggregated and therefore anonymous. If you do not allow these cookies we will not know when you have visited our site, and will not be able to monitor its performance.

*Targeting Cookies*

These cookies may be set through our site by our advertising partners. They may be used by those companies to build a profile of your interests and show you relevant adverts on other sites.   They do not store directly personal information, but are based on uniquely identifying your browser and internet device. If you do not allow these cookies, you will experience less targeted advertising.
