

# Provider burnout solutions

Stop burnout in its tracks, give providers more time back, and get support for each step on your EHR journey

More time with patients and less time staring at screens. It's the balance all healthcare providers want to achieve. Yet too many physicians still get so overburdened by clinical documentation tasks and technology that they suffer from a fundamental problem: **burnout**.

**44%** of physicians report burnout

Source: 2021 Medscape National Physician Burnout & Suicide Report

Burnout erodes care quality. **And it's expensive, costing healthcare organizations between \$500,000 and \$1 million to replace just one burned out physician.**

---

**You have the power to stop burnout today.**

**DeliverHealth offers a complete menu of proven solutions.**

Our team combines decades of EHR expertise with leading-edge technology to make physician's lives simpler, boost provider satisfaction, and stop physician burnout in its tracks.

---

# Keep Physicians Top-of-Mind Across Your EHR Journey

Our solutions and deep subject matter expertise can help boost physician adoption at every stage of your EHR journey.

## ● EHR Activation

- **Data Management and Archiving** – Help make sure clinicians can access legacy EHR data.
- **Chart Abstraction and Preparation** – Reduce clinician anxiety when using the EHR.
- **Appointment Conversion** – Build a plan, train your team, devise a schedule, and give your physicians all the pertinent information they need on the first day of go-live.

## ● EHR Workflow Analysis, Optimizations & Upgrades

- **Managed Services** – Superpower your team with expert EHR help desk and information support.
- **Telehealth Support** – Ease the pain of virtual visits by helping clinicians get on the line and assist in writing notes.
- **Documentation Tools** – Make it easier for clinicians to document patient visits with the powerful eSOne platform. It allows physicians to choose their favorite documentation method—transcribing or scribing—in the same easy-to-use app.
- **Physician Hotline** – Assist providers where they struggle the most.
- **Personalization Analytics** – Identify clinicians that need the most assistance with workflows, chart prep, finding legacy data, and writing notes.

## ● Benefits of Our Provider Burnout Solutions

- Help providers spend up to 75% of their time on direct patient care
- Give physicians 3 more hours a day on patient care
- Drive physician loyalty and retention
- Create happier physicians
- Accommodate more patient appointments
- Increase revenue

---

### Stop physician burnout today.

Let DeliverHealth show you how to improve EHR workflows now.
